Remote Solutions eliminates the challenges of a clumsy, stationary, remote circuit breaker racking system. Protect your people and your assets with a compact, portable, scalable, and universal solution. The research, design, and build all happen in-house in our state-of-the-art facility in Tucson, Arizona.

Installed in all 50 states,
Remote Solutions' patented system
offers:

- Best-in-class choice for Power Utilities, Mining, Petrochemicals, transportation, etc.
- Compatible with low and medium voltage switchgear (480V to 38kV)
- Alternative to arc flash protective gear
- Mitigates hazards per NFPA 70E
- Working distance up to 150 feet
- Eliminates risk of misalignment and damage to switchgear
- Easy to install with standard two-year warranty.

Because Distance is the Best Arc Flash Protection
